

Oct. 18, 1988 Planning Board Meeting min. M. McCulloch, J. Matheson,  
W. Stickney.

Steven Smith Brought his Plan for the car wash, con. store. and office.

He submitted Hydrological Study, permit sent to d.e.p. for storage tanks and gas tanks, and the architect design for the lot. The Fill-it Up Please co. Had rep. there to answer any questions we had on the system.

Steve stated that construction of the store and the office would begin as soon as possible. ~~the~~<sup>Water</sup> Water would supply the store and office space but the car wash would be supplied by drilled wells. A Public Hearing would be slated.

Patten corp. brought their final plan before the board.

The ownership on the map has to be changed.

Hydrological Study was not available for the board members.

Letters from the Schools, fire dep., police dep., and post mistress. were not available.

Wavers asked for:

1. Roads 18" to 12" base 3" crust Chip & Seal 1½"
2. Center of the road due to discussion on sidewalk construction.
3. Underground wiring.
4. Street Lights

Discussion followed on some of the items.

Robert Sturgeon, road comm., was on hand to answer any question on the chip and seal.

Meeting adjourned.

Judy Matheson
