

Cornish Planning Board Minutes. Nov. 7, 1988 present M. McColloch.
W. Stickney, J. Matheson, V. Bendexter.

Dan Hoyt Represented Blue Rock Ind. He gave a presentation on chip seal.

This was to inform the board on what is needed for a good road and how long this would last. These questions came up with the Patten Corp. subdivision..

The road for this subdivision came up for discussion no decision was made to accept as a waiver.

Also discussed was the slope of the road in the Killdeer Acres Subdivision. It was agreed that Marilyn would contact Steven and tell him we were concerned about the slope of the road.
