

On Dec. 19, 1972 the Planning Board met with Carl Laws, Myron Lamb and David Joy. Mr. Laws gave us several maps of the town on which the 100 yr. flood plain has been defined. These are to aid the board in zoning the shores of the Mississippi and Sacramento Rivers!

Mr. Lamb answered many questions put forth by the board concerning zoning, mobile homes and sub-division standards. Mr. Lamb made the point that the board did have the right to approve the sale of 3 or more lots without the formation of a sub-division if circumstances should warrant.

Mr. Joy discussed a land use survey map that was prepared this summer by J.C.R.P.C. The board was left a copy of the map on which we are to make revisions before the final copy is drafted.
