

PLANNING BOARD MEETING 3/06/2000

**Members attending: Woody Hartford, Jessica Larson, Darrell Watson
and Dan Sherman**

1. Ron Parker:

Location: School Street TaxMap____ Lot____

Proposal: to seek approval in consolidating one parcel of land on School St. to be subdivided at a later date.

The applicant did not appear before the board, hence the proposal was waived.

2. Sam Gilpatrick/Ron Orthuse:

Location: Communication Tower just off High Road TaxMap____ Lot____

Application/Proposal to extend the existing communications structure by an additional 40 feet. The tower serves the Cornish water district and the Cornish Fire Dept.

Consideration: Request would increase “antenna” height by 40 feet not the actual structure. Maximum height per town ordinance is 150 feet. Use restrictions to include current users only.

Discussion/Review: The extension would enable the Cornish Fire Department to lease out space to adjoining towns enabling them to extend emergency communication services.
NO CELLULAR EQUIPMENT IS INVOLVED.

The application/proposal is under consideration after a thorough review of the town ordinances. A vote will take place at the next planning board meeting scheduled 4/3/00.
