A meeting has been scheduled for Monday, June 16th at 7pm. The Select persons present were reminded of this meeting.

Ray Estabrook took a minute to review ordinances governing signage and junkyards. Some questions were raised as to if the current ordinances cover the junk yard issue adequately.

SMRPC presentation on Aquifer protection:

At the request of the planning board a representative from SMRPC presented samples of other towns aquifer protection plans as well as discussed the maps that indicate areas that may require protection. It was decided by the Planning Board to develop an outline of issues that may need further fact finding in order to determine if we have enough protection for the towns current public water supply, any future public water supply, and finally its private water supply ( samples & draft of outline attached).

It is also determined that the board should acquire the current State of Maine Geological maps for the Town of Cornish. The acquisition of maps will be handled by Meredith Harding.
