

The July 24th meeting of the Planning Board was held at the town hall. In addition to the planning board the meeting was attended by the board of selectmen and Will Liberty, building inspector. The main item of the evening was to formulate a system by which building approval could be monitored by the planning board. This is necessary in order that the planning board be aware of building starts before work is completed and power permits requested.

Mr. Liberty stated that several parties had refused to purchase building permits. It was decided that after a final notice by mail those in violation of the town building code would be subject to the \$50 per fine and would be dealt with by the town lawyer.

With the help of those present at the meeting I compiled a list of
