

The Cornish Planning Board met August 21 at Pike Memorial Hall. We discussed the fact that the Springvale Auto Parts building would cost \$3500 to demolish before filling in the basement for a parking lot. The board decided not to buy it.

The subject of shore front zoning was discussed and tabled until a future meeting. Also the National Bicentennial celebration was discussed very briefly, it was felt that it was early at this time to decide on any action which should be taken.

Respectfully submitted
