

On Sept. 18, 1973 the Cornish Planning Board met at the Town Hall.

It was decided that the Auto Parts store should be bought but not torn down. Bradley thought that a suitable buyer could be found and that he might restore the building.

Bradley also discussed new forms for recording perk tests; no action was taken.

Restrictions on mobile homes was also discussed without any action being taken by the board.

Mr. Liberty read a letter he had sent to Bob Davis regarding his remodeling of his garage to living quarters. The building is condemned. Also read was a letter to ~~Vida~~ Westleigh regarding her son-in-law building without a permit on her land.

Mr. Liberty also reported that he was calling the state plumbing inspector in to check some questionable plumbing situations.

The board also decided that Howard & Phil Scott have not violated the state sub-division law by selling a lot on the corner of Rt. 5 & Kimball Hill road because of the fact that sold other lots before the law was in effect.

Respectively submitted
