

**SELECTMEN'S MEETING
APRIL 18, 2001**

The minutes from the last meeting were signed. The accounts payable and the payroll warrant were signed.

Carol was told to keep "bugging them" for the list of which bills get paid from which account.

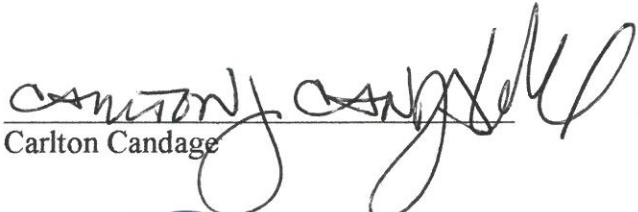

Tom and Scott Pingree came into discuss the leasing of the air packs. They don't want to lease them because the interest would be too high. They want to buy four this year and four next year. They think that they could borrow from the truck account or give up the purchase of the large hose for this year.

They also brought up that the septic system at the fire barn needs replacing. They will get an estimate for replacing both the tank and the leach bed.

There was further discussion on turning the money appropriated for the Fire Department over to them so they can take care of there own bills. Vinal will check with David Brant to see if this is legal or not.

The papers to post the School Budget were signed.

There was a discussion on the need to get the ordinance book redone. It needs to have the Tower ordinance and the Flood Plain ordinance included.
