

MINUTES OF SELECTMEN'S MEETING  
JUNE 7, 1995

Present : Carlton Candage, Vinal Pendexter and William Pease

1. Called to order at 7:00 PM
2. Garth and Bidget Miller came in to discuss Watson Road- They are trying to buy a piece of the Day Property and have questions on weather they will be trespassing to get to the property. The status of the road is the Town has maintained it up to the shed, from there on it is abandoned. Abandonment the property came together, but there is still an easement for any one who owns beyond. anything beyond the shed has to be maintained by the owner. Carlton's stand is that the road has been abandoned from the tractor barn on. There is a question as to subdivision the Miller's would have to find out from the currant owners if there have been any other sales or pending sales of on lots, the first sale is O.K. but if it is not the first sale it may fall into subdivision.
3. Follow up on the Old Dump Site - Saco River Corridor \_ Cornish is on the agenda for July 12. at 730 PM Selectmen need to bring the application.
