

**SELECTMEN'S MEETING
AUGUST 7, 2002**

The minutes from the last meeting were signed. The payroll warrant was signed.

The road salt bids results were awarded to International Salt.

A bankruptcy notice was received from Adelpia. Carlton will call Mike Edgecomb for information about service.

Meredith Harding's house is now on the historical register.

Carlton went to the Planning Board meeting and found out that Howard Saterley is allowing transients to live in the corn shop building. Rob Millard read the regulations and they are allowed to live there for 30 days. The town was in the process of condemning the building. Carlton will get in touch with MMA for advise and get David Brandt to compose a letter to condemn the building.

Dan Sherman came in to find out if the map and lot maps and the zoning map could be merged for clearer information on zoning for the CEO and the planning board. This will have to be discussed with O'Donnell about feasibility and costs. This would be for the CEO and the planning board use only.

A member of the planning board has turned in his resignation. Dan will talk to any of his alternates and see if they want full time status and if not he will call Charlene about putting an ad in the Shopping Guide.

John had questions about the crosswalks getting finished. They will get Station Road Repair to paint them.

Vinal thinks that a permanent sign should be made for the sand & salt shed and the recycling boxes. The recycling has temporary signs that they put out during hours but he thinks they should be posted full time. Carlton will get prices for a permanent sign.
