The need for blood is constant and only volunteer donors can give. 62% of the population can't give blood, 38% can give, yet only 3% do give. Become a regular donor at the Sacopee Valley Community Blood drives in 2024. Ask a friend or family member to join you and start a new tradition. If you are blood types O+, O-, A- or B-, please consider doing a Power Red donation as you will be helping trauma patients in need of multiple units.
